Experience

Freelance Webflow Developer (Upwork & Independent Clients)

Sep 2025 - Present [Upwork Profile](#)

- Developed responsive Webflow websites using Client-First methodology
- Built CMS-driven websites with clean structure and scalable class naming
- Translated Figma designs into fully functional Webflow builds
- Implemented SEO best practices
- Improved site performance
- Integrated third-party tools

Summary

Webflow developer focused on structured, maintainable builds using Client-First methodology.

I work on both static and CMS-driven websites, with strong attention to responsiveness, clean class naming, and scalability.

Comfortable extending functionality with custom code when Webflow's native capabilities are not enough.
